

Opening New Doors

A capital campaign to increase capacity and care in the isolated mountains of the Dominican Republic.

OUR GOAL

Build a government-approved healthcare facility, open full time and staffed by local medical professionals in partnership with visiting volunteers.

OUR IMPACT

Increase patient capacity twelve fold, with year-round access to high quality medical and dental care.

The Somos Amigos Difference

We deliver critical, life-sustaining primary medical and dental care to subsistence farmers in the isolated mountains of the Dominican Republic.

Patients receive care at no cost.

One clinic for both medical and dental care.

Management and advisory council from the local community.

The Urgent Need

Despite our success over the last 28 years, there are thousands more in the region who remain underserved.

The Current Challenge

Our model of interval care (open just 4 weeks a year) makes it impossible to serve all those in need.

Our current facility does not meet Ministry of Health requirements for a full-time clinic.

The Solution: Opening New Doors

FULL-TIME CLINIC

Build a new 6,000 square foot medical and dental primary care facility that will operate full-time.

FULL-TIME STAFFING

A team of full-time Dominican health care professionals will staff the clinic in partnership with visiting volunteer teams, enabling significantly increased patient services.
